- Build a weather analyzer web-application involving backend, frontend, design, API powered by NodeJS, Angular, Python, GCP, Azure.
- Awarded Best Technical prize in the International **10K Apart Challenge 2016** by Microsoft.

TellMeWeatherNow - GopherConIndia, 2015

- Build a web-application, written in Go that provided weather data concurrently for 5 cities. Won Scholarship for **GopherConIndia 2015**.

Equilibrium - Google, 2014

- Build a web-application in Python on Google Cloud Platform for managing project deadlines. Selected as International finalist in **Google Cloud Developers Challenge 2013**.

ideaPad (Android) 2014

About

I believe I am a passionate engineer and a quick learner.

Have good time management, communication, and planning skills with the ability to learn quickly and multi-task in a fast-paced environment.

I am passionate about building products and possess analytical and problem-solving skills.

Education

Bachelor in Technology

Jaypee University of Engineering and Technology, India

Computer Science & Engineering
2012 – 2016
